

Setup

- Divide the class into 2 teams.
- Prepare Scenario Cards with short situations. Examples:
 - *Homework is hard.*
 - *A friend drops their books.*
 - *You see someone being teased.*
 - *It's sunny outside but you have chores.*
- Each card should have space for two options: Easy Choice and Right Choice.

How to Play

1. A team draws a Scenario Card.
2. They brainstorm together:
 - What would be the *easy* choice?
 - What would be the *right* choice?
3. The team acts out both choices in a short role-play.
4. Reflect on: *Which choice brings more peace, kindness, or truth?*

Scoring

- Some point for clearly showing the *easy choice*.
- Some points for acting out the *right choice*.
- Bonus point if the team explains why the right choice is better.
