

🇬🇧 SSSSB Story 075b – *My View on Tourists* [13+]

🇬🇧 SSSSB Story 075b – *My View on Tourists* [13+]

During the break, three students were sitting together under a tree near the schoolyard. They watched people walking by and began talking about tourists who visit their country and city.

Student 1 said: *“My parents have a small restaurant. We work hard every day, but tourists almost never come to our restaurant. They prefer bigger and more modern places. Because of that, we don’t benefit much from tourism. Besides that, we don’t understand their language, so even if they did come, it would be difficult to talk to them.”*

Student 2 nodded and said: *“At least your parents have a restaurant. My parents don’t have a shop, a restaurant, a taxi, or anything that tourists might need. For us, nothing really changes when tourists come. Sometimes it feels like tourism is only for others.”*

Both students felt disappointed. To them, tourists seemed far removed from their own lives and daily concerns.

Student 3 listened carefully and thought:
*Is tourism only about money and businesses, or is there something more?
Can meeting tourists also bring something else?*

Question of the Day & Heart-Work

Student 3 (that is you):
What is your view on tourists who come to your country?
Do you agree with Student 1 and Student 2, or do you see other possibilities?

Always speak from your own opinion and your own personal experience.
