

🇬🇧 SSSSB Story 068b – Differences Between Village Life and City Life (For ages 10 and up)

🇬🇧 SSSSB Story 068b – Differences Between Village Life and City Life (For ages 10 and up)

Two students from a village are talking about life in the city.

Student 1 says:

*"You know... here in the village there are few opportunities and not many fun things to do."*

Student 2 says: *"Do you mean compared to how it would be if we lived in the city?"*

Student 1 says: *"Yes, exactly! Let me give a few examples:*

**a)** *In the city, you have all kinds of shops where you can buy clothes, shoes, bags, toys, gifts and much more. Here in the village, there are only a few shops and very little choice.*

**b)** *Students there take the bus to school. On the way, they see cars, bicycles, scooters, motorcycles, beautiful buildings and many people. Here in the village, we have to walk **45 minutes** to school, and on the way we only see nature and animals.*

**c)** *It is much more lively in the city, because many people live there and there is always something fun happening. Here in the village it is quiet and boring."*

Student 2 says:

*"I actually find it much nicer and more peaceful here in the village. During the holidays I visit family in the city, but honestly, I only enjoy it for **2–3 days**. After that, I long to return to our village lifestyle."*

Student 1 says in surprise:

*"Oh, really? I didn't know that! I thought city life was better in every way. Shall we ask the SSSSB family what they know about city life and village life, and what their experiences are?"*

Question of the Day & Heart-Work

What do you know about the difference between village life and city life?  
What are the advantages and disadvantages of each?
