

1st Youth, Soul Blossom Class, Katunje, Saturday July 25, time 4pm to 5 pm

01 introduction:

- Tell in short about yourself & Why we have these Soul Blossom Youth Classes?

02 A small story with Heart-work question 2.1:

Once upon a time there was a student walking in the city. He saw a very very rich businesswoman. He recognized her from the TV and the big companies she owned. The rich businesswoman walked with a lot of wallets, with a lot of money.

She planned to buy everything she liked, as she often did. Sometimes she even bought the whole store when there were many things in it that she liked.

She dropped / lost one of her wallets. The student picked it up and thought:

"Shall I give it back or will I give it to the people who were really in need and got no help from anyone?"

He hesitated between 2 thoughts.

1st thought: "E Prabhu, what should I do, I will give it to the poor who really really need it, because I am sure this businesswoman will use it to buy even more unnecessary things. Prabhu you know how crazy she is, she doesn't even know how many purses/wallets she has. I feel sad Prabhu, but it's her money, so dharma is to give back, but maybe it's a better dharma to give it to people in need. I don't know what is the best thing to do, I will give it back"

2nd thought: "E Bhagwan, what should I do, if I give her back, she will buy an ice cream for me and continue with shopping. Because she did this to a friend of mine last time when she lost one of her wallets, she gave my friend a chocolate because the chocolate shop was open. But today the chocolate shop is closed & the ice cream shop is open, so I am sure she will give me an ice-cream and continue with shopping if I give her the wallet back. Bhagwan, now you blessed me with an opportunity to do something for others. An ice-cream is tasty, but people in need are really important now. So I will give it to who really need, and off course I can buy an ice-cream for myself"

With God's Blessing and your hard working, we are going to make Katunje a model / village, where all will take care of each other. We start to be an example, others will follow automatically.

Students came up with at least 1 idea about community service.

- Think of what we can handle as a group,
- What is useful and needed for our village
