Program for the SSSSB classes SSSVM grade 6 and 7

Study tips, overview of useful tips.

- How to study effective

01: Do your homework / learning work right away as much as possible
(Do not Delay your homework / Learning work until the last moment).

02: Work ahead, especially the subjects in which you want to improve.
(Setbacks have then lesser influence)

03: Study regularly, even if you don't have homework / learning work.

04: Make a realistic / useful study schedule and follow your timetable.
(Rhythm and discipline make life easy and enjoyable)

05: Do what's most important first.
(Postpone things that are not really necessary as often as possible)

06: Help your classmates. Not the one who gets the best marks, but the one who helps others are the happiest people and the best peoples (and how more you help, how better you will understand and remember the subject).

07: Be happy with homework and have fun doing it.
The more homework the easier the exams will be for you.

08: Use your mobile as useful as possible. In the past, often the smartest students had the best marks.
Nowadays often the students who use their mobile the least for unnecessary things are the best students.

09: Being calm and focused makes everything in life easier and funnier. Healthy food, exercises, less mobile, sufficient rest, mediation, mantra, bhajans etc. etc. help to improve our concentration

10: Don't put unnecessary pressure on yourself. When you have done your best, be satisfied with yourself and the result.

11: If you feel bore with study then help your parents some time, it makes you fresh.

12: If you feel bore with study then do meditation or sing bhajan it also make you fresh but don't play mobile game.

Students of SSSVM grade 6, Grade 7, Grade 8

**Our gratitude to Bhagawan Baba
for Showing us the path.
