🇬🇧 SSSSB Story 064b – What Are SSSSB Classes, and What Do We Learn in the SSSSB Classes?
(For ages 10 and above)

Two grade 7 students, Amani from Congo and Veena from Nepal, both have friends who attend the SSSSB classes. They have never been to one themselves, but they often talk about them.

Amani: "I've noticed something. The students from the SSSSB classes are different from the other students."

Veena: "That's funny, I've noticed that too. In the SSSSB classes, they sing, play games, talk about the values in the stories, and they seem very confident."

Amani: "Yes, and they are also calmer, kinder, and more helpful than we are. They really seem to enjoy what they do."

Veena: "Shall we go to an SSSSB session one day?"

Amani: "Good idea! But first, let's ask the SSSSB students what the SSSSB classes really are — and what they learn there."

The two friends nod. They decide to interview some SSSSB students. They want to understand why the program has such a positive impact on them — and maybe, who knows, they might want to be part of it too.

Question and Heart-Work of the Day: Share your experience with the SSSSB program with the students who want to know more before deciding to join.
