

## program & Summary of our 2nd lesson

Program of the 2<sup>nd</sup> Soul blossom class. 01 July 2020

=====

### Summary of our 2nd lesson

Despite slow internet and power outages, the students made heart-work with great care (also manually). with a lot of wise answers. From each student who send the heart work for me, i take 4 sentences. We will talk about in de zoom class. We cant talk in the meeting about all your answers, but read each word precisely. and answers what are very important I wil share in the class

#### **a: If you could do miracles, what would you do?**

Most imported is we praktisch good and positive. because even we if change something ( No accident, no corruption, give food, give money, ect ect, wil not help much). But if people change their own behavior the problems will solve. How more wil change themself how faster change wil come.

#### **b: Are there differences between SSSVM and other schools?**

All student give very good answers on these question.

Finally our conclusion is: If we don't listen, don't talk, don't think & finally we don't practice good / positive things. We don't use all the benefits-opportunity we got from SSSVM .

#### **c: Why do you think we have these Soul Blossom classes?**

Also the student give very good answers on these question. And finally the conclusion is: To inspire each other to focus on good things. How more we all practice what we learn in de Soul Blossom
