

🇬🇧 SSSSB Story 079a – Making Time to Help [5–12]

🇬🇧 SSSSB Story 079a – Making Time to Help [5–12]

One day, two students were talking after school.

One student said,

*“I want to help more. I can help my teacher in the classroom, help in the SSSSB class, and help my parents at home.”*

The other student said,

*“I also want to help, but I have homework, sports, and other things to do. I think I am too busy.”*

The first student smiled and said,

*“If we plan our time well, we can still help others. Even a small help given with love is special.”*

The second student said,

*“You are right. I will also try to make some time to help.”*

🇬🇧 Questions, Heart-Work & Physical classes can perform a drama activity about today’s topic. With which things can you help your teacher in class, your parents at home, or in your SSSSB class?
